

Community Information Session

Neal Math and Science Academy Redevelopment Project

All Contractors, Local Businesses and Interested Job Seekers Invited!

Please join North Chicago School District 187, IFF and baso, as well as JGMA Architects, Gilbane Building Company/ Bowa Construction and Blackwood Group, at a community information session for the Neal Math and Science Academy Redevelopment Project.

Project Scope

IFF and baso, alongside JGMA Architects, Gilbane/Bowa and Blackwood Group, are providing design and construction management services for the redevelopment of North Chicago School District 187's Neal Math and Science Academy. This revitalization project involves the transformation of the district's middle school into a safe, modernized learning environment to improve student success and increase college and career readiness. The project includes new construction of an approximately 84,000 SF facility and renovation of an approximately 11,000 SF existing gymnasium to be completed and occupied by Fall 2022. The bid releases are expected to be issued in April 2021.
